Why Judges Matter

Good judges shape the safety and stability of our communities. Their decisions affect families, children, victims, and defendants every single day.

A good judge:

- **Protects communities** by following the law and issuing appropriate sentences
- **Ensures fair resolution of family matters** through adoption, custody rulings, divorce decrees and probate
- **Imposes fair sentencing**, holds defendants accountable and directly impacts the safety of our community
- **Reviews and rules on legal and constitutional questions**, including determining whether a law violates the U.S. or Ohio Constitution

Judges impact the quality of our lives and safety of our community much more than most people realize — which is why ***electing qualified, principled judges is essential.***

Key Election Dates

- Early Voting begins **October 6, 2026**
- Election Day is **November 3, 2026**

Judicial candidates **do not appear with party labels**. You won't see "Republican" or "Democrat" next to their names. That means **it's up to YOU** to know which judicial candidates align with your values and represent your interests.

Vote **all the way down the ballot** and include every judicial race.
